

Back in time fundraising

Take a look back through time to inspire your March fundraising.

- 1** In March 1876 Alexander Graham Bell uttered the first words into a telephone. Get sponsored to survive a mobile free day.
- 2** The hula-hoop was patented in March 1963. Why not have a sponsored hoop-a-thon, you could form relay teams or go head to head?
- 3** In March 1994 the largest omelette in the world was made in Yokohama, Japan. In honour of this achievement serve omelettes at lunch and donate the proceeds to Alzheimer's Research UK.
- 4** Alan Sugar was born in March 1947. Hold an apprentice style challenge in Alan's honour and see which office team can turn the largest profit for Alzheimer's Research UK.
- 5** In March 1908 Mother's Day was first celebrated. Host a pampering evening to indulge and relax - you needn't be a mum to enjoy this.

Thanks to your help we can make breakthroughs possible.
